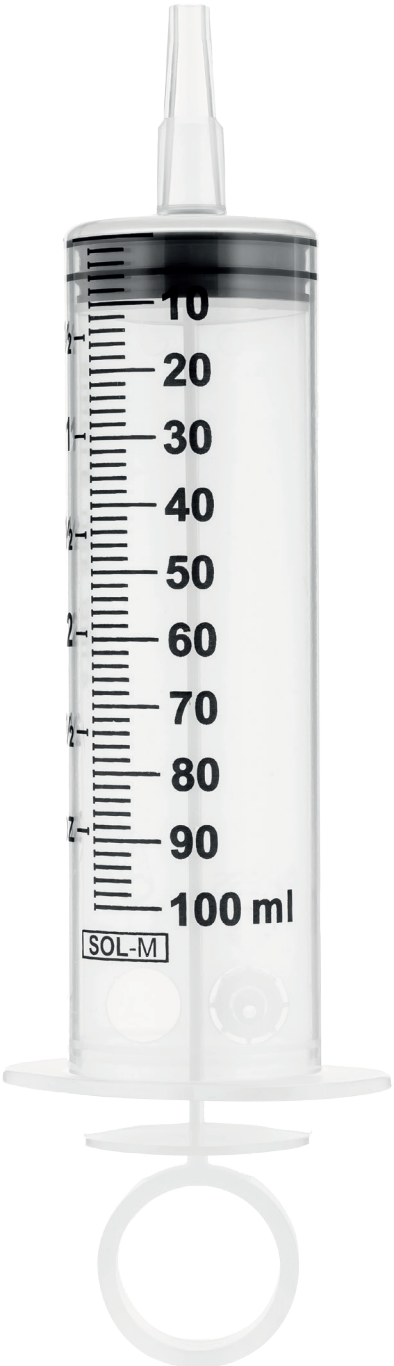
Sol-M™ Catheter Tip Syringe

SYRINGE

Sol-M™ Catheter Tip Syringe has a long-tapered tip designed to aid in irrigation or for connection to non-ISO compatible luer connections such as nasogastric tubes.
In addition- the device can be used as suspension device for medicinal products admixture according to the respective Summary of Product Characteristics (SmPCs) of the drugs.



Features:

- High-transparency barrel facilitates seeing syringe content
- Silicone lubrication ensures smooth plunger movement
- Syringe plunger backstop – helps to prevent accidental withdrawal of plunger
- Black graduation scale – designed to enhance contrast and readability
- Large finger grips support clinicians' better grip control during injections
- Designed according to ISO 7886-1
- Not manufactured with Latex, PVC and DEHP

CE 2797

SYRINGE

Sol-M™ Catheter Tip Syringe

Tip cover cap for 60 ml

Protect the syringe content during transportation from filling site to fluid discharge site.

Luer adapter for 60 and 100ml

Allows filling the syringe from sterile solution using a standard Luer connection.

Sol-M™ Catheter Tip Syringe

Ref. Number	Product description	Volume	Box Qty	Case Qty
